PROFILE

Driven and solution-oriented with a strong focus on system development within .NET. I am eager to apply my knowledge in a real-world setting and further develop my skills in software development. I am seeking a summer job or an internship (LIA) where I can actively contribute to development projects, collaborate with experienced professionals, and gain hands-on experience in object-oriented programming, database management, and software architecture. My goal is to broaden my technical expertise while bringing enthusiasm, analytical thinking, and problem-solving skills to a dynamic development team.
